**Journal of Fluid Mechanics Volume 468 10 October 2002**

| | | |
|---|---|---|
| **Q. Zhu, M. J. Wolfgang, D. K. P. Yue & M. S. Triantafyllou** | Three-dimensional flow structures and vorticity control in fish-like swimming | 1 |
| **I. G. Girgis & J. T. C. Liu** | Mixing enhancement via the release of strongly nonlinear longitudinal Görtler vortices and their secondary instabilities into the mixing region | 29 |
| **A. Aliseda, A. Cartellier, F. Hainaux & J. C. Lasheras** | Effect of preferential concentration on the settling velocity of heavy particles in homogeneous isotropic turbulence | 77 |
| **R. H. Davis, D. A. Rager & B. T. Good** | Elastohydrodynamic rebound of spheres from coated surfaces | 107 |
| **R. E. Hewitt, P. W. Duck & S. R. Stow** | Continua of states in boundary-layer flows | 121 |
| **M. Yi, S. Qian & H. H. Bau** | A magnetohydrodynamic chaotic stirrer | 153 |
| **M. E. Stern & K. R. Helfrich** | Propagation of a finite-amplitude potential vorticity front along the wall of a stratified fluid | 179 |
| **J. E. Butler & E. S. G. Shaqfeh** | Dynamic simulations of the inhomogeneous sedimentation of rigid fibres | 205 |
| **Z. Kizner, D. Berson & R. Khvoles** | Baroclinic modon equilibria on the beta-plane: stability and transitions | 239 |
| **J. Xu, M. R. Maxey & G. E. Karniadakis** | Numerical simulation of turbulent drag reduction using micro-bubbles | 271 |
| **C. Marchioli & A. Soldati** | Mechanisms for particle transfer and segregation in a turbulent boundary layer | 283 |
| **R. J. Hill** | Exact second-order structure-function relationships | 317 |
| **P. F. Fischer, G. K. Leaf & J. M. Restrepo** | Forces on particles in oscillatory boundary layers | 327 |
| INDEX TO VOLUME 468 | | 348 |
| SCHEDULE OF INTERNATIONAL CONFERENCES ON FLUID MECHANICS | | 349 |
